“Whereas there is at the present time, but one sublet for traffic from the City of Juneau northerly along the shore of Gastineau Channel, which sublet is a narrow roadway through a section of the City of Juneau which is now well built up and along which further building operations are in progress, and

Whereas because landslides over said roadway are likely at any time to block said roadway, and stop traffic to and from the City, thereby impeding development work of the most urgent character; and

Whereas the only feasible means of constructing a roadway, ample to accommodate said traffic is to build the same upon piling for a short distance across the tide flats in front of the property owned by Indian residents of said City of Juneau; and

Whereas a question has arisen as to the right of the City to construct said roadway across said property without infringing upon the littoral rights of said Indian residents; and

Whereas the depth of water at high tide on the portion of the tide flats over which said roadway will be constructed is not sufficient to float even the smallest craft, and the construction of said roadway will not prevent ingress and egress to said Indian property from the waters of Gastineau Channel and will furthermore be of advantage to the Indian residents adjoining said tide lands; and

Whereas the property of said Indians and proposed roadway over the said tide flats have been platted so as to show the relation of said roadway to the tide lands and to the property of said Indians for the purpose of presenting to the Department of the Interior the situation as the same actually exists;

Now, therefore be it resolved, that the Department of the Interior be requested to grant to the City of Juneau the right to construct a roadway across said tide flats in accordance with the plat hereto attached upon the express understanding that the City of Juneau will claim no littoral rights as a result of such grant and will at all times exercise such grant and will at all times exercise such influence as it properly may to preserve the littoral rights of said Indian residents; and

Be it further resolved that this privilege and the plat hereto attached be transmitted to the Governor of Alaska, Honorable J.F.A. Strong, with the request that he transmit the same to the Department of the Interior with his recommendation in order that prompt action of the Department may be obtained, because of the urgent need for the construction of said roadway during the present summer.”
